

Wash June 18. 1770

The 16th Curr. I wrote you by a Kinderhook Schoop
attable on Saturday evening. That the pleasure of your Letter of post with the
agreeable intelligence of Pety's health being greatly restored by a change of Air,
The political part of your letter does not surprise me - I am too well
acquainted with the Manners of a certain set of restless spirits to imagine
they can ever be easily imposed of all the powers of a Colony, which surely they'll
have when Lord Dun Moore arrives - all that affords me much Laughter, for
reasons not proper to commit to printing. but I may explain to you in confidence
hereafter - The Lieut. Gov. is quietly retired into the Country - I think by Dr Ship
will not be here till about the first week in August. and then he will very
probably (so our agents writ) bring as an Obje branch, leave to pass our
Loose Office Bill for the emission of paper Money. I mean the Bill our Late Baronet
referred by Report to - Our City has been in great Commotion for abt. 10. Days
past, on the subject of the Nonimportation agreement. that I apprehend will soon
be dissolved. At our Church in general declared openly & publickly they'll be no
longer imposed ^{on} by the presbiter of Boston & Newport & these ships sail
tomorrow for London, & the 11th for Bristol - Pety's health is much improved,
recovered her giving Molly & Nancy a line, & weave the ceremonies of a punctual
Answer - I your friends among us (as far as I know) are well, my Compl
wait of all your Connections in the north - My love to y^r Wife & Children
and believe me P^r -
y^r Obedt^l & affectionate Son
Wm. Schaeck
